Volume 104 (1) 1988

<b>Itoh, K., Yamashita, A. and Kubota, H. Y.</b> The expression of epidermal antigens in <i>Xenopus laevis</i>	1	<b>Pratt, H. P. M. and Muggleton-Harris, A. L.</b> Cycling cytoplasmic factors that promote mitosis in the cultured 2-cell mouse embryo	115
<b>Aoyama, H. and Asamoto, K.</b> Determination of somite cells: independence of cell differentiation and morphogenesis	15	<b>Kwong, L., Sobolewski, A., Atkinson, L. and Weeks, G.</b> Stalk cell formation in monolayers from isolated prestalk and prespore cells of <i>Dictyostelium</i> <i>discoideum</i> : evidence for two populations of prestalk cells	121
<b>Beck, F., Samani, N. J., Byrne, S., Morgan, K., Gebhard, R. and Brammar, W. J.</b> Histochemical localization of IGF-I and IGF-II in the rat between birth and adulthood	29	<b>Mann, J. R. and Lovell-Badge, R. H.</b> Two maternally derived X chromosomes contribute to parthenogenetic inviability	129
<b>Solursh, M. and Jensen, K. L.</b> The accumulation of basement membrane components during the onset of chondrogenesis and myogenesis in the chick wing bud	41	<b>Pratten, M. K., Brooke, A. M., Broome, S. C. and Beck, F.</b> The effect of epidermal growth factor, insulin and transferrin on the growth-promoting properties of serum depleted by repeated culture of postimplantation rat embryos	137
<b>Nakanishi, Y., Nogawa, H., Hashimoto, Y., Kishi, J.-I. and Hayakawa, T.</b> Accumulation of collagen III at the cleft points of developing mouse submandibular epithelium	51	<b>Breen, K. C. and Regan, C. M.</b> Developmental control of N-CAM sialylation state by Golgi sialyltransferase isoforms	147
<b>Elbethieha, A. and Kalthoff, K.</b> Anterior determinants in embryos of <i>Chironomus samoensis</i> : characterization by rescue bioassay	61	<b>Sassoon, D. A., Garner, I. and Buckingham, M.</b> Transcripts of $\alpha$ -cardiac and $\alpha$ -skeletal actins are early markers for myogenesis in the mouse embryo	155
<b>Snead, M. L., Luo, W., Lau, E. C. and Slavkin, H. C.</b> Spatial- and temporal-restricted pattern for amelogenin gene expression during mouse molar tooth organogenesis	77	<b>Barton, C. H., Dickson, G., Gower, H. J., Rowett, L. H., Putt, W., Elsom, V., Moore, S. E., Goridis, C. and Walsh, F. S.</b> Complete sequence and <i>in vitro</i> expression of a tissue-specific phosphatidylinositol-linked N-CAM isoform from skeletal muscle	165
<b>Rempel, S. A. and Johnston, R. N.</b> Steroid-induced cell proliferation <i>in vivo</i> is associated with increased <i>c-myc</i> proto-oncogene transcript abundance	87	<b>Clarke, H. J., Varmuza, S., Prideaux, V. R. and Rossant, J.</b> The developmental potential of parthenogenetically derived cells in chimeric mouse embryos: implications for action of imprinted genes	175
<b>Clarke, H. J., Rossant, J. and Masui, Y.</b> Suppression of chromosome condensation during meiotic maturation induces parthenogenetic development of mouse oocytes	97		
<b>Lacalli, T. C., Wilkinson, D. A. and Harrison, L. G.</b> Theoretical aspects of stripe formation in relation to <i>Drosophila</i> segmentation	105
