Volume 107 (3) 1989

Fontaine-Pérus, J. C., Chanconie, M., Le Douarin, N. M., Gershon, M. D. and Rothman, T. P. Mitogenic effect of muscle on the neuroepithelium of the developing spinal cord	413	Easter, S. S. and Taylor, J. S. H. The development of the <i>Xenopus</i> retinofugal pathway: optic fibers join a pre-existing tract	553
Mitani, S. Retarded gastrulation and altered subsequent development of neural tissues in heparin-injected <i>Xenopus</i> embryos	423	Busturia, A., Casanova, J., Sánchez-Herrero, E., González, R. and Morata, G. Genetic structure of the <i>abd-A</i> gene of <i>Drosophila</i>	575
Birk, D. E., Southern, J. F., Zycband, E. I., Fallon, J. T. and Trelstad, R. L. Collagen fibril bundles: a branching assembly unit in tendon morphogenesis	437	Schaart, G., Viebahn, C., Langmann, W. and Ramaekers, F. <i>Desmin</i> and <i>titin</i> expression in early postimplantation mouse embryos	585
Ohinata, H., Tochinal, S. and Katagiri, C. Ontogeny and tissue distribution of leukocyte-common antigen bearing cells during early development of <i>Xenopus laevis</i>	445	Hardy, K., Handyside, A. H. and Winston, R. M. L. The human blastocyst: cell number, death and allocation during late preimplantation development <i>in vitro</i>	597
Steel, K. P. and Barkway, C. Another role for melanocytes: their importance for normal stria vascularis development in the mammalian inner ear	453	Inouye, K. Control of cell type proportions by a secreted factor in <i>Dictyostelium discoideum</i>	605
West, J. D. and Flockhart, J. H. Genetic differences in glucose phosphate isomerase activity among mouse embryos	465	De, S. K., McMaster, M. T., Dey, S. K. and Andrews, G. K. Cell-specific metallothionein gene expression in mouse decidua and placentae	611
Moskalewski, S. and Malejczyk, J. Bone formation following intrarenal transplantation of isolated murine chondrocytes: chondrocyte – bone cell transdifferentiation	473	Kopczynski, C. C. and Muskavitch, M. A. T. Complex spatio-temporal accumulation of alternative transcripts from the neurogenic gene <i>Delta</i> during <i>Drosophila</i> embryogenesis	623
McConnell, J. and Lee, M. Presence of <i>cdc2</i> ⁺ -like proteins in the preimplantation mouse embryo	481	Brown, N. A., Hoyle, C. I., McCarthy, A. and Wolpert, L. The development of asymmetry: the sidedness of drug-induced limb abnormalities is reversed in situs inversus mice	637
Hooper, K. L., Parkhurst, S. M. and Ish-Horowicz, D. Spatial control of <i>hairy</i> protein expression during embryogenesis	489	McMahon, J. A. and McMahon, A. P. Nucleotide sequence, chromosomal localization and developmental expression of the mouse <i>int-1</i> -related gene	643
Nothiger, R., Jonglez, M., Leuthold, M., Meier-Gerschwiler, P. and Weber, T. Sex determination in the germ line of <i>Drosophila</i> depends on genetic signals and inductive somatic factors	505	Gaul, U. and Jäckle, H. Analysis of maternal effect mutant combinations elucidates regulation and function of the overlap of <i>hunchback</i> and <i>Krüppel</i> gene expression in the <i>Drosophila</i> blastoderm embryo	651
Storey, K. G. Cell lineage and pattern formation in the earthworm embryo	519	Vavra, S. H. and Carroll, S. B. The zygotic control of <i>Drosophila</i> pair-rule gene expression. I. A search for new pair-rule regulatory loci	663
Storey, K. G. The effects of ectoteloblast ablation in the earthworm embryo	533	Carroll, S. B. and Vavra, S. H. The zygotic control of <i>Drosophila</i> pair-rule gene expression. II. Spatial repression by gap and pair-rule gene products	673
Govind, C. K. and Pearce, J. Delayed determination of claw laterality in lobsters following loss of target	547
